
The Little Star
Who Lost Her Twinkle
Created by Hamidreza Rostami

High above the sleeping town, all the stars in the night sky loved to twinkle.

Every star loved to twinkle.
Every star except
little Twilla.

Twilla tried
and tried.
She wiggled.
She shimmered.
But her light
stayed soft
and steady.

One night, a little bat flew by,
looking lost and worried.

“I cannot find
my cave, said the bat.
The night is too dark.”

“I will help you,”
she said, and shone her
gentle light ahead.

They flew past sleepy mountains
and quiet forests until they saw
the bat's cozy cave.
the bat's
cozy cave

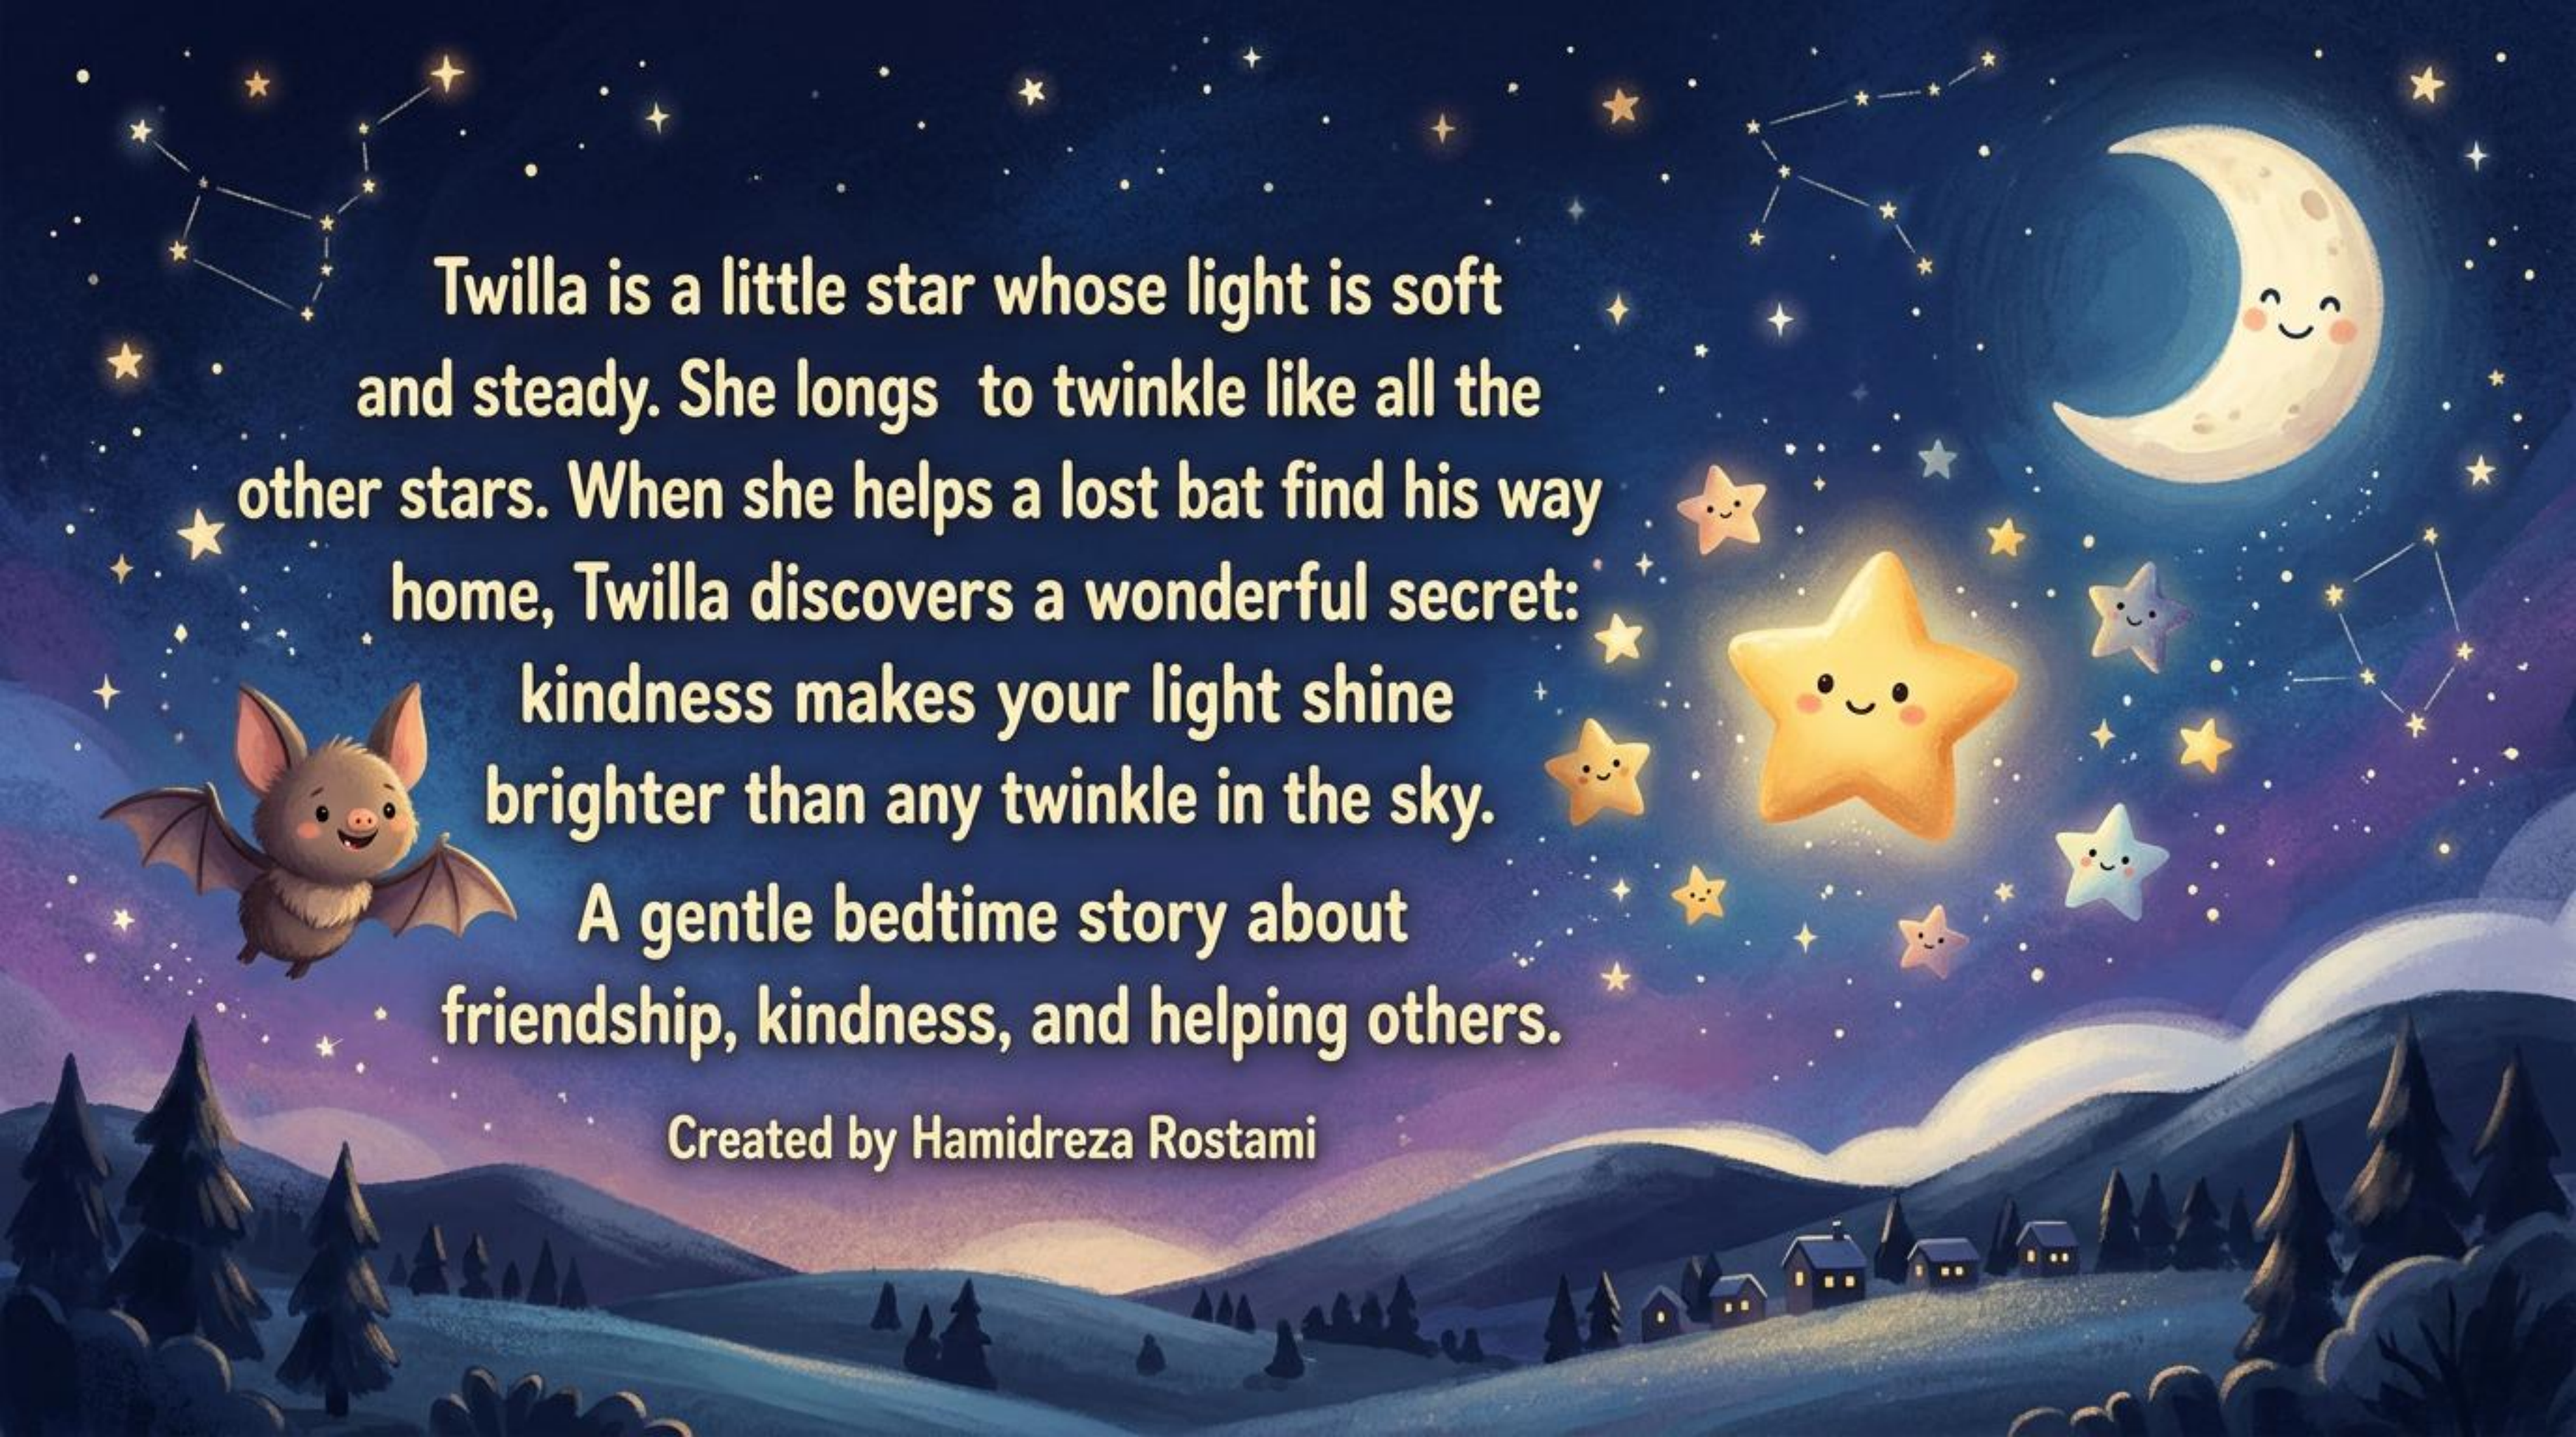

Thank you, Twilla!
said the bat.
Your light guided
me home.

Twilla felt warm
and happy inside.
Her heart glowed
brighter than
any twinkle.

Then a soft cloud drifted by and
covered all the twinkling stars.

The other stars
hid behind
the cloud.
But Twilla stayed,
shining for
everyone below.

Then something magical happened.
Twilla's light began to twinkle,
brighter than ever before!

Twilla is a little star whose light is soft and steady. She longs to twinkle like all the other stars. When she helps a lost bat find his way home, Twilla discovers a wonderful secret: kindness makes your light shine brighter than any twinkle in the sky.
A gentle bedtime story about friendship, kindness, and helping others.
